## Door Panel Removal/Installation

### NOTE:

- Take care not to scratch the door panel and door.
- When prying with a flat-tip screwdriver, wrap it with protective tape to prevent damage.

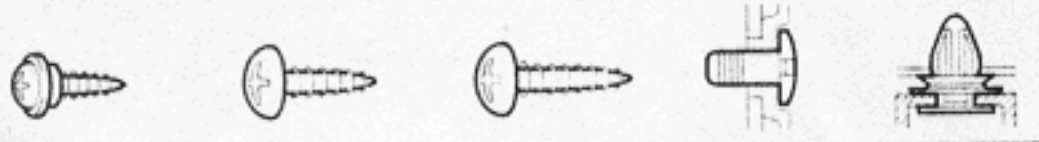

Remove the door panel with as little bending as possible to avoid creasing or breaking it. Remove the door panel in numbered sequence.

Install the panel in the reverse order of removal, and note these items:

- Replace any damaged clips.
- Make sure the connectors are plugged in properly.
